

Strong & Stylish Universal T-Tops for Center Console Boats

Don't let the beautiful curved lines alone convince you, Stryker T-Tops are all about strength and performance. Designed to fit most boats with a center console up to 50" wide, each t-top is individually constructed using the best materials including thick 2" diameter 6061-T6 aircraft aluminum tubing with an anodized or powder

coated finish and durable Sunbrella® marine fabric for a long life of beating back harsh environments.

All Stryker products are carefully designed to deliver the highest quality at the best value. Our goal is to provide customers with OEM or custom fabricated quality but at a fraction of the cost.

SG300 FOR CONSOLES UP TO 48"

The SG300 model is our best selling non-folding t-top that matches the excellent craftsmanship of the SG600 but is designed for a smaller budget.

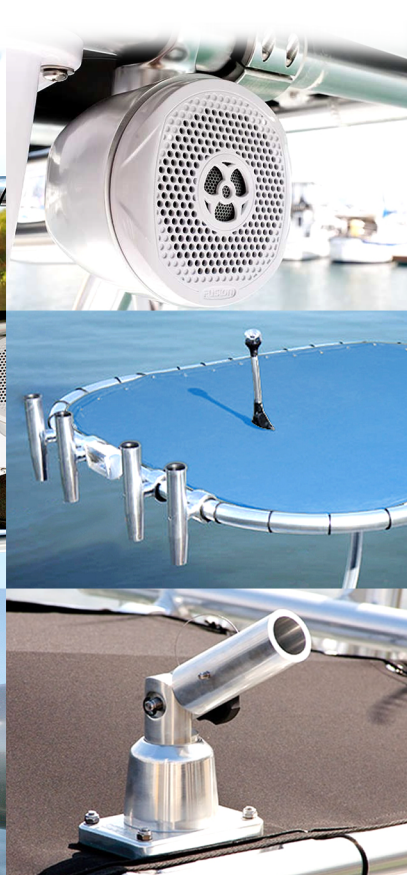

Height: 6' 4.25" Canopy: 6' 6.5" X 5' 1"

SG600 FOR CONSOLES UP TO 50"

The SG600 is our flagship model featuring a convenient, space-saving folding top section and seven mounting plates for accessories.

Height: 7' 2.5" Canopy: 6' 10" X 5' 1"
